2.12 How does IQAC Contribute/Monitor/Evaluate the Teaching & Learning processes:-

IQAC is one of the leading committees which has been often active in the college. It functions as per norms and guidelines laid down by the concerned authorities. It has its control & constant observations on the teaching learning methods and system adopted by the teaching faculty. It also strives to know if the students are able to comprehend to a great extent the knowledge given to them or not. It also provides academic suggestions regarding innovative processes to be used for the academic exchanging. It also awakens to make use of the novel, technical and globally accepted methods & systems as the tools of effective and successful teaching –learning process. As far as evaluation is concerned most of the evaluative systems are already decided by the higher policy making authorities like central Govt., Govt. of Maharashtra, U.G.C. University and the examination Dept. of the University. However internal practice test, mock-oral test, mock-practical, home-assignments and tutorials are some of the academic practices conducted in the institution that help us to evaluate the degree of comprehension of the students, which is the part of evaluation of teaching-learning process.

Apart from this at the end of every academic year feedback regarding teachers, faculty, library, administrative staff and other facilities are taken from the students in written prescribed format. These feedback are great kind of help for us to reform the current teaching –learning process and it leads us to shift from old, traditional systems to novel innovative methods of teaching and learning

Annexure III

Best Practices of the institution

Best Practice- 1

Title: Participation of NCC students in SOCIAL ACTIVITIES.

Objectives:

The NCC aims at developing character, comradeship, discipline, a secular outlook, the spirit of adventure and ideals of selfless service amongst young citizens. Further, it aims at creating a pool of organized, trained and motivated youth with leadership qualities in all walks of life, who will serve the Nation regardless of which career they choose. Needless to say, the NCC also provides an environment conducive to motivating young Indians to join the armed forces.

Context:

The NCC is a responsive, learning and continuously evolving organization. Its activity is guided by certain core values that we endeavor to instill among all ranks of the NCC. These include the following:

The cadets should aware and develop the patriotic commitment to encourage cadets to contribute to national development. Respect for diversities in religion, language, culture, ethnicity, life style and habitat to instill a sense of National unity and social cohesion.

The cadets should be available for community development programme and other social programme.

The Practice:

NCC enrolment has been started in the month of June and July for every academic year. **ATC** camp has organized by NCC group head quarter Pune as per allotment of the vacancies conducted by Unit 2 Mah. Girls Bn and 36 Mah. Boys Bn. Enrolled cadets participated in that camp as per selection and get trained. These and college weekly parade remained helpful to them for appearing and qualifying the B and C certificate examination.

Throughout the year NCC cadets engaged in various social and community development activities. International Yoga Day (IYC) celebration has the national activity. In 2015-16 (First year of IYC) All 17

directorate NCC cadets has participated in IYC and at the same timing and in same uniform in India made the Limca Book of World Record of IYC.

Main best practices of NCC are Swatchh Bharat Abhiyan-Cleanliness drive. Tree plantation, Make in India and Digitization of India in these activities cadets actively participated and create the awareness among the society. World Earth an Hour Day, Water Conservation, Plastic irradiations is the regular activities of NCC cadets. Qualified cadets of B & C certificate Examination can directly appear for interview of SSB and CDS exams. In the month of December every year training cadre is running for the development of cadets in that subjects were taught i.e. weapon training, map reading, obstacle training, field signals, judging distance and field signals, drill etc. Republican day parade and Independence parade ceremonial drill was excellent.

Evidence of Success:

Overall development, communication skill, self discipline, honesty, punctuality etc. characters were observed in participated NCC cadets. Most of the cadets' get motivated for Army services. Cadets are enthusiastically involved in community and social services. Leadership qualities observed in cadets. Most of the NCC Cadets actively participated in various college activities and acting as a grooming leaders.

Problem:

Drop out of the NCC cadets are the major problem because of hard training, unavailability of transport facility in remote area. Poor economical condition of parents, especially girls cadets get married before completion of the education.

Notes: NCC is very special activity started from 1948. It is considered as "Budding Soldiers and Tomorrow's Grooming Leaders"

Best Practice- 2

Title: Competitive Exam Centre

Objectives:

The Competitive Examination Centre (CEC) of our college was established in 2012 with the objective of providing academic facilities to the students of college and nearby area aspiring for administrative career by successfully appearing for the Civil Services Examinations.

Context:

The number of students wanted to pursue career in civil services is very less because of rural area, lack of information and guidance. The institute decided to start the CEC in college to provide the platform for the students so that they get the idea about the various types of competitive examination. It is believe that students in rural areas are hard working, polite and they have the potential to become successful in civil service examination.

The Practice:

The aim is to create awareness and interest among students about Civil Services, and ensure that an increasing percent of students from college and nearby area gets represented in the services. Since the 2012 the CEC has been conducting one day workshop on competitive exam for all students. Currently along with this CEC is also conducting extra lectures before & after the regular schedule of college. Lecturer took effort for the students. They are taking these things seriously along with their regular subjects. The student gets opportunity to prepare various subjects necessary for MPSC, UPSC competitive examination trough these extra lectures.

Evidence of Success:

Many students have succeeded in MPSC examination. The students from remote & tribal areas have benefited by this centre. There is positive feedback from the students. The students are happy & satisfied with CEC. More number of students after completing graduations are preparing for MPSC and UPSC in Pune and Mumbai. They are finding their future & career through this centre in civil services.

Problem:

As academic year progresses strength of students in the CEC decreases so essential measures are adopted to maintain the students in this centre. It requires both human and financial support for the centre to run appropriately. Finance require for maintenance of computer printer, furniture, stationary etc apart from the workshop which is conducted. No fee is collected from students for programme organization. It requires more findings for successful working of student's bright future.

Notes:

It is innovative idea. It should be practiced in every institute to create good governing officers who can serve better for society.
